About the job

 **Data Scientist (Computer Vision & NLP) | Remote EU (must have right to work) | 1–4 Years Experience**

Hey future innovator 🙌

We're on the hunt for a **Data Scientist** who's obsessed with solving real-world problems using **Computer Vision, NLP, and Deep Learning**. If you've got 1–4 years of experience, right to work in EU, and a passion for building cool stuff with Python, we want to hear from you.

Why work in iGaming with US?

Because you'll be building cutting-edge tech that powers entertainment for millions—where innovation meets impact, and your work directly shapes the future of digital gaming experiences.

What you'll be doing:

- Building smart ML models using image, text, audio & tabular data
- Training pipelines in **Azure** and deploying end-to-end apps in **Python**
- Creating tools for model inference, logging, and performance tracking
- Collaborating with data and engineering teams to solve complex challenges
- Staying ahead of the curve with the latest in LLMs, RAG, and CV/NLP trends

What you bring:

- Solid Python skills + experience with **PyTorch** or **TensorFlow**
- Hands-on with Docker, CI/CD, and testing frameworks like Pytest
- Experience with model tracking, versioning, and performance metrics
- Bonus points if you've worked with **Azure ML, Huggingface, or LangChain**

What's in it for you:

- 🏆 Competitive salary
- 📚 Training on industry best practices
- 🌍 Remote-first culture with a global team
- 🚀 Growth opportunities in a fast-moving tech company

If you're ready to level up your career and build cutting-edge solutions with a team that values innovation, apply now! 🌟

Remote (EU only) | Must have right to work

Requirements added by the job poster

- 1+ years of work experience with TensorFlow
- 1+ years of work experience with pytest
- 1+ years of work experience with Python (Programming Language)
