## AI & Data Scientist

**Field of work:** IT**Posting Date:** 23 Dec 2025**Application deadline:** 7 Jan 2026**Location:** Ballerup 2755, Denmark, Denmark**Contract type:** Permanent**Job ID:** 4085

## Role Description

### AI & Data Scientist

LEO Pharma is accelerating toward next-generation innovation powered by data. We're harnessing machine learning and AI to deliver insights that transform how we work and, ultimately, help bring better medicines to patients faster. To drive this journey, we're looking for someone ambitious, entrepreneurial, and passionate about data – to join our AI team.

This role is available in our offices in Ballerup, Denmark, and Gdańsk, Poland.

### Join us in creating a future legacy in medical dermatology

At LEO Pharma, we are global leaders in medical dermatology. We have 115 years' experience in bringing innovation to healthcare. And we are eager to do much more. Each year, close to 100 million people have a better day because of our medicines.

### Your role

In this role you will tackle data challenges as opportunities for innovation, applying your strong programming skills (Python, cloud, ML) and clear communication to both technical and non-technical audiences. Your curiosity, adaptability, and drive to challenge the status quo will help you grow toward technical leadership while shaping the future of AI at LEO Pharma.

### Key responsibilities:

- Partner across the organization to design and ship impactful AI solutions for our business with AI.
- One week, you might build financial forecasting models; the next, deploy predictive maintenance for large-scale manufacturing; a few weeks later, predict molecular properties or enhance agentic workflows in our internal generative AI solutions.
- Take ownership of projects and develop them with creativity using traditional ML, computer vision, NLP, cloud infrastructure, application development etc.
- Work alongside and learn from experienced AI, data, and cloud infrastructure teams: benefitting from hands-on mentorship, exposure to best practices, and opportunities to lead initiatives as you grow into a future leader in the field.

### Your qualifications

**To succeed in this role, we imagine that you have the following qualifications:**

- Solid Python fundamentals (NumPy, pandas, PyTorch/TensorFlow, etc.).
- A public GitHub or other examples of work.
- Hobby projects or entrepreneurial experience to show.
- Experience in ML competitions (e.g., Kaggle).
- Typescript web development experience (e.g. nextjs, etc)
- A commitment to clean, readable code and clear communication.

**What we offer**

- Real responsibility and visible impact from day one, with clear path to leadership.
- Mentorship from our Chief Data Scientist, senior AI practitioners and opportunities to lead projects.
- Direct access to decision-makers and the chance to shape our AI strategy.
- Access to leading online learning platforms and resources.
- Rotation across AI domains to build both technical and professional skills

**Your application**

You do not need to upload a cover letter, but feel free to add a few sentences in your resume or CV on why this position has your interest. Please refrain from adding a photo to your CV.

For further information, please contact **Alex Schuleit at +45 3148 2519**.

**Together, we reach beyond the skin**

Become part of LEO Pharma, a global leader in medical dermatology, as we go beyond the skin to make a lasting impact. We are the legacy-builders of the future – enabling people to have a better today and tomorrow. With the world as our lab, we are transforming innovative ideas into more effective and easier-to-use medicines. Through collaboration and partnerships, we can do much more.

At LEO Pharma, we believe in the power of individuals to drive change. Our flat organizational structure empowers you to make a visible impact and offers versatile roles for professional growth. We value diversity and welcome applications from all qualified candidates, recognizing that our different perspectives, backgrounds, and attitudes enable us to make the best decisions. Join our passionate team at LEO Pharma and be yourself as we work together to make a fundamental difference.

For certain positions, LEO Pharma might complete a background check conducted by a third party.

Join us and make an impact in, on and far beyond the skin. [Apply now!](#)
