- Title:** Machine Learning Developer
- Location:** Copenhagen Metropolitan Area - 3 days ago
- Employment Type:** Full-time
- Post Views:** 1,689
- Comments:** 1
- Shares:** 1

Application Status: Application submitted

About the job:

AudienceProject is looking for an AI/ML-focused developer for our Copenhagen office to support our continued growth. Are you a curious and bright developer? And do you have an interest in AI/ML? Then we have an opportunity for a career in a fast-growing industry that directly cooperates with companies such as Meta, Google, and Amazon. AudienceProject is a Danish-founded SaaS company empowering advertisers to make confident marketing decisions and reach their audience more effectively based on independent, comprehensive cross-media measurement.

Who you will work with:

Our AI/ML team develops and maintains machine learning systems and models of varying complexity, but mostly custom-built deep learning solutions. As a member of the AI/ML team, you improve different products and solutions by applying machine learning to them. You will be part of a small, tight-knit team.

- Participate in all steps from data exploration to model training and evaluation, doing both engineering and research.
- Analyse big data using Spark and Databricks to find insights and opportunities for development.
- Constantly learn from the latest developments in distributed data processing and AI/ML, and potentially apply these to your work.
- Share knowledge of best practices with the other technical teams, and communicate opportunities and interests to sales and customer success managers.
- Develop production-grade, efficient and maintainable systems in both Scala and Python.

What we offer:

A unique career opportunity in a fast-growing scale-up full of curious, intelligent and creative people where you can grow as we grow our company.

- Competitive compensation
- Pension scheme and health insurance
- Home office
- Centralized office
- Hybrid-work model
- Day off policy
- Lunch made in an on-site chef
- Unlimited travel days and coffee
- Unlimited fruit and partly company dinners
- International environment
- Flexible working hours
- Innovative and market-leading products and services
- Opportunity to be part of a dynamic and international team
- Teamwork on challenging tasks
- Working directly with some of the most modern and successful companies of our time

Send us your application:

If you are interested in the above and want to work for a steady SaaS company, we want to hear from you. If you have any questions about the position, please contact us at jobs@audienceproject.com.

We invite candidates for interviews on an ongoing basis, so please don't hesitate to send your application. Apply by filling in the application form.

The deadline for applications is 20 October 2025.

We look forward to receiving your application!
